

MOTOR CONTROL

POWER QUALITY

POWER DISTRIBUTION

*Your single
source for
electrical power
solutions*

3PHASE
POWER SYSTEMS

excellence

*110% isn't our goal; it's
our starting point.*

3 Phase: Driven to excel

We believe that a job well done is more than just solving a problem.

It's investing the time to fully understand your processes and ensure we're providing the best possible solution for your electrical power system needs.

Low Harmonic / Active Front End VFD

It's about pride. It's about knowing our trade inside and out and being responsive to your every concern. It's about earning your trust and never once taking it for granted.

That's what we believe. And that's what our people bring to work every single day.

Excellence. Innovation. Accountability. That's 3 Phase Power Systems.

Customized power control solutions for:

- Oil & Gas
- Mining
- Water & Wastewater
- Transport
- Materials Handling
- Renewable Energy

PARTNER OF
VACON[®]

innovation

*We never stop looking
for a better way.*

***The expertise you need.
The dependability you deserve.***

Since 1993, we've been one of Western Canada's most respected suppliers of industrial motor controls and power conversion technology.

At our CSA/UL-certified facility, some of the industry's most experienced and knowledgeable professionals develop customized solutions designed to operate in some of the harshest environments on the planet.

GE Motor Control Centres

- LOW- AND MEDIUM-VOLTAGE VARIABLE FREQUENCY DRIVES (VFDs)
- HARMONIC FILTERS
- MOTOR CONTROL CENTRES (MCCs)
- LV & MV SWITCHGEAR
- TRANSFORMERS
- GE MULTILIN PROTECTION & CONTROL SOLUTIONS
- E-HOUSES & ELECTRICAL BUILDINGS

We stand behind every control system we build, with start-up and commissioning, field service, troubleshooting and repairs. Whether we designed your system last week or last decade, we're there for you the moment you need us.

Authorized Distributor

A photograph of an industrial facility, likely a water treatment plant, featuring a complex network of stainless steel pipes, blue pumps, and large cylindrical tanks. The scene is brightly lit with overhead fluorescent lights. A white arrow points from the right towards the word 'accountability' which is overlaid on the image.

accountability

*To our clients. To our
trade. To ourselves.*

The 3 Phase difference

As both a distributor and an integrator of electrical power control systems, we're able to offer superior pricing on equipment while also customizing a solution to meet your precise needs.

By treating our employees with the same fairness and respect we show our clients, we've attracted a team of engineers, technicians and electricians whose combined experience is unparalleled in the industry. Our consultative approach ensures that expertise is put to work for you in developing a power control solution that exceeds even the highest of standards – our own.

Low & Medium Voltage VFD Systems

3 Phase Power Systems has a proven track record of innovation, reliability and success. Ask one of our service professionals how you can put our unrivalled expertise, award-winning innovation and industry-leading customer service to the test.
